

YPK Wish List 2012

We always welcome gifts and donations from visitors and supporters. This wish list is aimed to give you some guidance about what the real needs of YPK Bali and our clients are, and how you can help meet them. You are welcome to make a financial donation and ask that it be used to purchase a particular wishlist item, or make an 'in kind' donation of the item itself - especially if you live in Bali or will be visiting. Links are intended as a guide only. Some items are available here and some will need to be brought from overseas so please get in touch with us at info@ypkbali.org for more information.

Top Priorities

No.	Item	Qt	Cost/Unit (IDR)	Total	More information	Example
1	Laptop (used, but good quality) for children's education program	3	0 (donated, used or secondhand)	0	Laptop computers will help teach students with disabilities computer skills, assist with coordination and fine motor skills and make learning fun.	
2	Swim diapers (Small and Medium adult size)	3	400,000	1,200,000	Providing simple equipment like swim diapers will mean our clients can participate in swim and water safety programs	http://www.theraqualatics.com.au/browse/browse.asp?DeptID=161&CatID=1085
3	Floatation aids for swimming education	3	200,000	600,000	Many of our clients have limited use of a large part of their body. Floatation aids will enable more of our clients to participate in swim and water safety programs.	http://www.theraqualatics.com.au/browse/browse.asp?DeptID=150&CatID=1076
4	Alternating pressure mattress	2	1,400,000	2,800,000	Due to limited mobility some YPK Bali clients can develop severe pressure sores. The donation of mattresses that relieve pressure will go a long way to improving the basic health of some YPK clients.	http://www.alternatingpressuremattress.com/14002e.html
5	Ultra violet lamp	2	14,000,000	28,000,000	Since YPK does not have special equipment to sterilize the rehab and clinic rooms, our staff and clients are at risk of infection being spread. This lamp can be used to sterilize the room everyday.	

Rehabilitation and Mobile Therapy Programs

No.	Item	Qt	Cost/Unit (IDR)	Total	More information	Example
1	Infrared Lamp	1	160,000	160,000		
2	Blood Pressure Monitor	1	1,300,000	1,300,000		
3	Elastic Bandage	5	80,000	400,000		
4	Hand weights	2	500,000	1,000,000		http://www.rebelreport.com.au/eecom/rebel/product_detail.aspx?id=14861&cat=194
5	Foot mat for walking practice	1	350,000	350,000	This is a life size walking 'map' that can be spread on the floor and used for walking practice and activities in the centre. We are seeking funding to purchase materials to make one locally.	
6	Hand splint for positioning	2	500,000	1,000,000		
7	Fine hand coordination tools	3	200,000	600,000		https://brainstimtoys.com/products/by/learn/
8	Hand brace	3	400,000	1,200,000		
9	Back brace	3	400,000	1,200,000		http://www.activeforever.com/images/product/medium/a312175_3.jpg
10	Knee brace	3	500,000	1,500,000		http://www.activeforever.com/images/Products/medium/A24513.jpg
11	Neck brace	1	750,000	750,000		
11	Shoulder wheel	1	400,000	400,000		http://www.medical.com/Products/active/active?cat=7&nav=5466113&nav=2004110041&nav=2107741&nav=2108111_3.jpg
12	Small folding chair (2) and table set for children	1	500,000	500,000	Basic education and activities for children with disabilities is part of the mobile therapy program. A small table and chairs would improve children's learning experience. Because the program travels in a van we need a folding set.	http://i.walmartimages.com/i/p/00/08/02/13/01/0008021301942_180x180.jpg
13	Shoulder ladder	1	1,400,000	1,400,000	This is a great rehabilitative tool to build upper-body strength and movement	http://www.medical.com/Products/active/active?cat=7&nav=5466113&nav=2004110041&nav=2107741&nav=2108111_3.jpg
14	Theraband resistance tapes	5	130,000	650,000	These tapes can be used for simple strength building exercises.	
15	Pillow for therapy	1	600,000	600,000		
16	Ankle weights	1	300,000	300,000		http://www.sportstek.net/ankle_weights.htm?cid=CPvGr6bu68CFyGfwoD8j1Eag
17	Leg brace	1	600,000	600,000		
18	Children' toys for coordination and fine motor skills	3	200,000	600,000	Simple toys like wooden blocks are great for improving hand strength and coordination. They will form part of our mobile therapy kit.	

Education program

No.	Item	Qt	Cost/Unit (IDR)	Total	More information	Example
1	Educational toys and puzzles	10	50,000	500,000	Educational games that use Bahasa Indonesia are more useful than those in English.	
2	Good quality paints and paint brushes	10	50,000	500,000	Many of students enjoy art and craft and it is also a great activity to improve coordination and fine motor skills.	
3	Small white board	3	100,000	300,000		
4	Small black board	3	100,000	300,000		
5	Flash cards in Bahasa Indonesia	4	50,000	200,000		
6	Shape sorter	3	150,000	450,000
